

#2358 Aluminum Tubular Braid

Aluminum tubular braid is a lightweight alternative to copper for light duty applications

- Manufactured with 5154A Aluminum.
- Provides shield coverage of 90% minimum (70% for .078" and smaller) at the nominal diameters specified.
- Approximately 30% of the weight of copper braid.
- This series is RoHS compliant.

Product Sizes and Dimensions

Daburn Item #	Nominal I.D.	Construction	Total # of Wires	Approx AWG Equiv.	Nom Circular Mils	Approx Weight Lbs./1,000 FT
2358-1/8	1/8"	24-5-36	120	15	3,000	4.3
2358-3/16	3/16"	24-6-34	144	13	5,724	7.3
2358-1/4	1/4"	24-16-36	384	10	9,600	12.7
2358-3/8	3/8"	48-8-36	384	10	9,600	13.3
2358-1/2	1/2"	48-11-36	528	9	13,200	17.6
2358-5/8	5/8"	48-8-34	384	8	15,264	18.7
2358-7/8	7/8"	48-7-30	336	5	33,770	41
