

**Daburn #2417
PTFE Wire – High Strength Alloy
Mil-W-22759/22**

Description: Single conductor stranded silver plated high-strength copper alloy insulated with extruded PTFE insulation. This wire meets Milspec MIL-W-22759/22, SAE AS22759/22.

Operating Temperature: -90°C to +200°C

Voltage Rating: 600 Volts

This series is RoHS compliant.

| Catalog Number | AWG | Strand | Nom. O.D. | | Milspec Designation |
